

DRUG CONSUMPTION SITES SHOULD NOT BE ACROSS THE STREET FROM A PRE-K SCHOOL

Within 2 blocks are 9 schools with 4250 students and 4000+ residents
Let's reduce the density of excessive social services in the area first

We want School Zone, not Containment Zone

Sign Our Petition

www.Change.org/CommunityHarmReduction

- 1 Keep the sites 1000 feet from schools & playgrounds
- 2 No Containment Zone. Open many sites or none at all. Reduce density of existing services not needed by Harlem residents
- 3 Allocate funding to deter drug dealing and open-air drug use
- 4 Establish a Community Advisory Board to formalize community engagement
- 5 Mandate data collection to hold operators accountable for directing patients to treatment
- 6 Prioritize treatment. 36 out of 64 NY's Assembly Districts are treatment deserts
